

4. Personalization and Profiling

NewsIQ is designed to help users understand important stories and discover information that is most relevant to them.

To provide a personalized experience, NewsIQ may use:

- Reading history.
- Topics viewed.
- Search activity.
- Categories followed.
- Bookmarks.
- Engagement metrics.
- Story interactions.
- Time spent reading content.

These signals may be used to:

- Generate personalized feeds.
- Rank stories.
- Recommend topics.
- Prioritize content.
- Improve search results.
- Surface related articles.

This processing may constitute profiling under certain privacy laws.

NewsIQ does not use profiling to make decisions that produce legal or similarly significant effects on individuals.

Where required by applicable law, users may object to or opt out of certain personalization activities.

5. AI Processing

NewsIQ uses artificial intelligence technologies to help users understand and analyze news stories.

AI capabilities may include:

- Headline generation.
- One-line summaries.
- Detailed summaries.
- Timeline generation.
- Fact extraction.

- Source comparisons.
 - Difference analysis.
-

5.1 Third-Party AI Providers

NewsIQ may use third-party large language models and AI services, including:

- OpenAI.
 - Google Gemini.
 - Other AI providers as our infrastructure evolves.
-

5.2 Information Processed by AI Systems

To generate outputs, NewsIQ may provide AI systems with:

- Article text.
- Headlines.
- Publication metadata.
- Source information.
- Story context.

NewsIQ seeks to minimize personal information sent to AI providers.

Where possible, NewsIQ aims to avoid transmitting user-specific information that is not necessary for providing AI functionality.

5.3 AI Limitations

Artificial intelligence systems are probabilistic and may:

- Produce inaccurate information.
- Omit important details.
- Generate incomplete summaries.
- Reflect outdated information.
- Misinterpret context.

Users should independently verify important facts and decisions.

6. Data Minimization

NewsIQ seeks to collect and process only information reasonably necessary for:

- Operating the Services.
- Improving user experiences.
- Personalization.
- Security.
- Legal compliance.

We strive to avoid collecting excessive information and regularly evaluate our data practices.

7. Redis Sessions and Authentication

NewsIQ uses session technologies, including Redis, to:

- Manage authentication.
- Maintain active sessions.
- Improve performance.
- Protect account security.

Session identifiers are used to authenticate users and support secure access to the Services.

Redis session data is generally temporary and retained only as necessary for operational purposes.

8. Cookies and Similar Technologies

NewsIQ may use cookies and similar technologies to support:

Essential Functions

- Login sessions.
- Security.
- Authentication.

Functional Features

- Theme preferences.
- Language settings.
- User preferences.

Analytics

- Understanding feature usage.
- Measuring engagement.
- Improving platform performance.

Security

- Fraud prevention.
- Abuse detection.
- Account protection.

Users may control cookies through browser settings, although disabling certain cookies may affect functionality.

9. Third-Party Service Providers

NewsIQ may share information with service providers that help us operate the platform.

Examples may include:

Infrastructure Providers

- Cloud hosting providers.
- Content delivery networks.

Authentication Providers

- Google.
- Other OAuth providers.

AI Providers

- OpenAI.
- Google Gemini.

Payment Providers

- Stripe.
- Razorpay.
- Other processors.

Analytics Providers

- Privacy-focused analytics services.
- Product analytics platforms.

Service providers are authorized to process information only as necessary to provide their services.

10. Legal Bases for Processing (GDPR and UK GDPR)

Where GDPR or UK GDPR applies, NewsIQ processes personal data based on one or more of the following legal grounds:

Contractual Necessity

To provide and maintain the Services.

Legitimate Interests

To:

- Improve products.
- Enhance security.
- Prevent abuse.
- Personalize experiences.

Consent

Where required by law, including certain marketing communications and cookie usage.

Legal Obligations

To comply with applicable laws and regulatory requirements.

Protection of Rights

To establish, exercise, or defend legal claims.

11. International Data Transfers

Information may be processed and stored in countries outside your jurisdiction.

These countries may have privacy laws that differ from those of your residence.

Where required, NewsIQ will implement appropriate safeguards, which may include:

- Contractual protections.

- Standard contractual clauses.
 - Technical safeguards.
 - Security measures designed to protect transferred information.
-

12. Information Sharing

NewsIQ does not sell personal information in the traditional sense.

Information may be shared:

- With service providers.
- With payment processors.
- With authentication providers.
- To comply with legal obligations.
- To enforce our rights.
- During corporate transactions.
- To protect users and the platform.

NewsIQ does not intentionally disclose personal information for unrelated third-party advertising purposes.

13. Marketing Communications

Users may receive communications relating to:

- Product updates.
- Security notices.
- Account notifications.
- Service announcements.

Where permitted by law, NewsIQ may send marketing communications.

Users may unsubscribe from marketing messages at any time.

Certain operational communications are necessary and cannot be opted out of while maintaining an active account.
